

Climbing is a hazardous sport and carries with it the risk of falls and equipment failure with resulting injury or death. Please do not climb unless you are sure of your and your partner's abilities and the equipment you are using including apparently fixed gear (all gear, including bolts and hangers, should be treated as abandoned gear). You must read and sign a waiver if you intend to climb, hike or otherwise enjoy access to the Torrent Falls property. Failure to read and sign a waiver before accessing the Torrent Falls property means that you are trespassing.

Thank you
